Emergency Break Glass Exit (Plastic)

Fireproof Emergency Exit buttons are an essential part of an Access Control System. This product should always be fitted on all Emergency Exits on the secured side whenever a failsafe (power locked) device is installed.

The button is simple to integrate and configure via the AKCess Pro Server Application. The construction of this Emergency Exit button is sturdy and durable and the material used is fireproof. This type of Emergency button is utilized worldwide and meets the most rigorous building and fire regulations.

Features

- Proven life cycle testing with replaceable Glass Contacts.
- Fireproof and durable construction.
